OSCAR E. WADLEIGH,
Forest Fire Warden.

ANOTHER ENEMY TO CONQUER

Here is a home front fight that everyone can get into. Last year in this State 558 brush and forest fires burned over 4,648 acres of land, of which 2,788 acres were valuable timber and young growth. With available manpower the lowest of any year since the war started, you can help to keep this loss down by preventing these fires from starting.

Keep in mind these simple rules:

1. Always get a permit from your forest fire warden before starting any fires in the open. Burning under certain conditions is permitted.

2. Never burn unless you have enough help to control your fire—a permit does not excuse you of negligence in case it gets away.

3. Always report any uncontrolled fire promptly to your forest fire warden. Minutes lost are acres lost.

4. Be especially careful with cigarettes, matches and pipes. Smokers caused most of our fires.

5. Never leave a fire unless it is dead out. You can't feel safe while there is a spark left.

KEEP NEW HAMPSHIRE GREEN.

HILL RED CROSS REPORT

The Red Cross in Hill was started in 1940. In the old town we held our meetings in different homes. Since we have been in the new town we have held most of our meetings in the Town Hall, as the articles we have made required the use of a number of sewing machines. Our group has been small but we feel as though we have accomplished a lot. A few months this year we did not have any sewing, as the Franklin Chapter, from whom we get ours, did not have any.

This year we have made men's and boys' pajamas, baby blankets, boys' night shirts, girls' night gowns, ladies' blouses, children's overalls, men's bath robes and kit bags.

We have sent in 184 finished articles, have made 171 kit bags, have knit scarfs and sweaters.

We wish to thank all those who have attended our meetings or taken work home to do, and also wish to give Mrs. Nellie Addison honorable mention for doing so much knitting for us. We thank Mrs. Smythe, production chairman of Franklin, for her kindness to us.

We few women from the town of Hill feel that we have done our bit to help some of the boys who are fighting for us, to make the Town of Hill and our Country a better place in which to live.

ETHEL WADLEIGH,
RUTH WILLARD.

SUPERINTENDENT'S REPORT

With schools closing all over the state, and in fact, all over the United States, because of shortage of teachers, Hill has again been fortunate in having teachers and keeping their schools open. Next year, unless the war should suddenly end, the teacher situation will be more critical than this year has been, and we hope Hill will again be among the fortunate ones.

We all regret the disability of Mrs. Blake and her absence, in consequence, from the school over which she has presided so long. We all sincerely hope for her full recovery.

We have been extremely fortunate in having Mrs. Rounds in town who was willing to take over for Mrs. Blake.

At the beginning of the school year, September 30, the number of pupils enrolled in the local schools was 34. The number seems small and some may question the expense in educating so small a group.

To those who think this way sometimes, I ask that you consider the matter from the following standpoint: Educating these children is not a wholly local matter affecting only the few we have each year. If we estimate its value wholly and only upon what it has cost per child, for eight years service, and that the value of this service ends, so far as the town of Hill is concerned, at the end of the eighth grade, then the cost of this education may well be considered expensive.

But there is a far broader conception of the foundation education given in the town schools. The value of the education of one child today is to be felt through successive generations. It will be agreed that the betterment of one generation over another will depend upon the advanced education of the citizens of each generation.

It is estimated that the boy you are educating today would have 1024 direct descendants in ten generations, and that the 1024th boy has benefited at least indirectly, if not directly, from the education being given the one boy now. It is also true that a boy educated in crime and ignorance today may transmit his evil tendencies through the generations down to his 1024th descendant.

"Blood will tell" is an old saying. Ignorance has been the primary cause of most misery, unhappiness, war and destruction in the whole world.

Education is the remedy for counteracting ignorance.

So then, we can feel that, through the schools we are supporting, we are helping to combat ignorance the world over; that our education today is not just for the child of today, but for descendants of that child for successive generations as well.

FRED S. LIBBEY,
Superintendent of Schools.
